tidy

hold option + drag → then command + D → multi duplicates

II Pasting from illustrator

delete the extra layer

Shift + command + G → remove the folder, keep the documents

command + [→ set the layer back

option + command + [→ set the layer all the way back

Hue

Hue

Red

Green → (0-255)

Blue "

Saturation

Saturation

Red

Brightness

Lightness → goes up when add white → (0-100)

Blue "

control + C \Rightarrow color picker

* For outlines \Rightarrow inside preferred

gshadow \xrightarrow{y} blue to black blur, negative spread

Blending mode and Opacity ∇ Blending mode not supported in SVG

background blur \Rightarrow useful when set background

option + command + C \rightarrow copy and paste the style

option + command + V

shared style

Appearance \Rightarrow create shared style

|| Text

Text \Rightarrow T

option + B \Rightarrow create a "

shift + return \Rightarrow line break

layer menu org

option + Command + O \Rightarrow convert text to outline

* check top right for missing fonts

|| Symbols

ctrl create symbol

send symbol to "Symbols" page

double click symbol \Rightarrow open the symbol page

make sure the elements all same size in order to interchangeable

|| sketch libraries

preferences \Rightarrow Libraries \Rightarrow add new file

|| Exporting

check background color

make exportable \Rightarrow can direct drag and drop to finder

make sure the names are not identical

insert + slice \Rightarrow use as screenshot

export group contents only \Rightarrow hold option to select only the ones wanted
